## THE CLOSING QUOTATIONS OF MONEY.

**Offerings and Sales at the Richmond To-baco Exchange—Internal Revenue Collections—Foreign Advances.**

**NEW YORK, Jan. 25.—Speculation at**

**the Stock Exchange was quiet, sales ag-**

**gregating only 129,533 shares. The open-**

**ing was quiet, following which the price of**

**Wheat, 75c, was the highest point of the day. The**

**firmness at this time was partly the re-**

**sult of a reduction in the posted rates of**

**sterling exchange of ½ to 1½ per cent., and**

**partly to the fact that the bears did**

**not continue their raid of late.**

**The losses in the P.M. earnings for the third**

**week of January (expected) were also**

**met with good effect. London again**

**sold in the local market, parting with**

**about 5,000 shares of value, and the**

**Industrial Fund. General Electric**

**was still active on the announcement**

**that the deal for the equipping of the**

**Fourth, Sixth, and Eighth-Avenue sur-**

**face lines had been perfected. Tobacco,**

**however, was down to 75c on the last**

**reconstruction of the company. The**

**feature of the afternoon trading was**

**the heaviest of the Antelope Coulers,**

**all dropping some points. The selling was**

**based on the belief that the**

**new low quotations now about**

**due will compare favorably with previous**

**years. The statement that the**

**New York and Esanada, one of the**

**Delaware and Hudson leases, had**

**been sold for \$100,000, and gold de-**

**bonds last year led to a fall selling**

**of Delaware and Hudson shares, and**

**played right into the hands of the bears.**

**The general fall yielded 75c from the**

**highest of the morning, and the**

**final final dealers were reactional and**

**a rally took place. Net changes show**

**losses of ½ per cent. in the general**

**list and 1½ per cent. in the Oadlers. Bonds**

**dropped a little. The transactions totalled**

**\$105,660.**

**MONEY AND EXCHANGE:** Money on

**call easy at 1½ per cent., last loan at**

**1 per cent., and closing offered at 2 per**

**cent.; prime mercantile paper, 3½ per**

**cent.; Bankers' note, 4½ per cent.**

**COTTON:** Drifted in the direction taken

**by wheat. Occasionally active moments**

**were seen, but the was mainly local.**

**Cottons were steady. May closed a**

**shade lower than Saturday.**

**CORN:** Was fairly steady at the open-

**ing. There was indifference to trade ex-**

**hibited, and prices dropped lower**

**in sympathy with wheat. May corn**

**opened at 24c, sold between 24c-24½c,**

**and 23c, closing at the inside—24c, under**

**Saturday. Cash corn was firm and 4c**

**higher, closing nominally easy, with the**

**final close at 24c.**

**OATS:** Drifted in the direction taken

**by wheat. The close was mainly local.**

**Cash oats were steady. May closed a**

**shade lower than Saturday.**

**PROVISIONS:** A, 75c, hog market

**continued to provision to provisions at**

**the opening, but the improvement was not**

**permanent, the weakness of wheat event-**

**ually exerting influence and causing an**

**easier feeling. At the close moderate**

**covering by shorts standardised the market**

**May pork closed 12c higher, May lard**

**and bacon a shade lower.**

**HIDES:** Were quiet and steady, busi-

**ness light, and demand moderate.**

**Natives, heavy, 96½c; light, 88½c; natu-**

**ral bridle, heavy, 8½c; light, 7½c; butt**
